

One-click Installs

Your guide to our free website
apps and software.

One-click Installs

When you buy a web hosting package from us, you automatically get access to a wide range of one-click install software. It's all free to use for both commercial and personal use, meaning you can create outstanding fully-functional websites in minutes.

Key features:

- 70+ one-click installs to choose from
- No lengthy installation processes
- No coding required
- Secure, state-of-the-art UK data centre
- Friendly UK support

Our one-clicks cover everything from web stores to social networks, so an impressive site is always just a click away. Take a look at all our installs via this guide, then purchase a web hosting package to get started.

CMS (content management systems)

If you want to build any kind of website quickly, a content management system is a solid choice. Not only is it user-friendly, it's easy to customise. Our CMS one-clicks include b2evolution, CMS Made Simple, Craft CMS, concrete5, Drupal, E107, Expression Engine, Geeklog, Joomla!, MamboCMS, MediaWiki, MODX, Moodle, Nucleus, OctoberCMS, PHP-Fusion, phpNuke, ProcessWire, Serendipity, SilverStripeCMS, Textpattern, Typo3, Vtiger and WordPress.

Ecommerce

Sell from your own website with one of our fully-fledged ecommerce solutions. Each install will give you a fully customisable online shop with the ability to add unlimited products and categories. Our ecommerce one-clicks include AbanteCart, AgoraCart, Cubecart, Magento, OpenCart, osCommerce, phpCOIN, PrestaShop, TomatoCart and Zen Cart.

Galleries, Forums & Social Networks

Create a photo gallery or add one to your existing website easily with Coppermine or Piwigo.

Install your own message boards with features like unlimited posts and replies, private messaging, emojis, theme switching and more. Our forum one-clicks include FluxBB, MyBB, phpBB, Simple Machines Forum and VanillaForums.

Build your own social network in a click for your group or community with features such as editable user profiles, avatars, discussion groups, private messaging and more. Our social network one-clicks include BuddyPress, Dolphin, Elgg and Gnu Social.

Analytics

All the visitor and website data you need in one easy-to-use interface. Simply install one of these analytics titles to learn more about who's accessing your website and how you can better serve their needs. Our analytics one-clicks include Matomo, Open Web Analytics and TraceWatch.

Webmail

We include webmail as standard with all our hosting packages, but if you want to opt for a different client we've given you others to choose from: phpList, Roundcube and SquirrelMail.

Business & Project Management

Make invoicing, staff management, and team projects easy with our business one-clicks: Bamboo Invoice, Dolibarr, dotProject, Feng Office, Gibbon, PHProjekt, Invoice Ninja, Invoice Plane, iQDesk, Kanboard, Simple Invoices and StatusNet. Manage your customers effectively and ensure great communication and sales with phpCOIN, SugarCRM or SuiteCRM.

Advise and support your customers with live chat software and support ticket systems that work perfectly straight out of the box. Choose from Crafy/Sales Syntax, Help Centre Live, osTicket, phpFreeChat and Trouble Ticket Express.

We also have several marketing- and advertising-themed one-clicks: LimeSurvey, phpList, PHPMailer, Prosper202, and Revive Adserver.

Tools

Our framework and developer tool one-clicks include Cachet, CakePHP, Laravel, MantisBT and Slim, while our one-click websites tools include Form Tools, LimeSurvey, phpFormGenerator, PhpMyFAQ, Tcexam Xerte, and WebCalendar.

A Tool for Every Purpose

Whatever you need for your website, we should have something for you.

All these tools are free to use, or at least have a free starting tier. So feel free to experiment!

They're supported by vibrant communities of open-source enthusiasts, so if you need any help, it should only be a few clicks away.
