- Built-in extension, templates and apps catalogue
- Built-in templates editor
- Image editor
- SEO tools like meta tags, add-to-Google and menu links
- Google Maps, Google reCaptcha, Google Analytics and Google Translate
- 500+ web-friendly fonts
- TawkTo live chat
- 60+ colour themes, 6 theme layouts, and 6 menu styles per template
- Custom favicon
- Free photo library with over 500,000 free professional photos
- Thousands of customisation possibilities

Optimise your website for search engines

There are plenty of tools to help your website rise up the search engine rankings:

- SEO friendly links
- Google Analytics support
- Google XML sitemap support
- Google website submission
- Custom meta tags
- Additional functionality

Make your website stand out from the crowd

Create a truly custom website with all these extra features included at no extra cost:

- Built-in search
- Poll module
- Live chat module
- Discussion forum
- Shopping cart (with PayPal and other gateway support)
- Newsletter
- Blog
- Map
- Photo gallery with optional slideshow and collage modes

- Restaurant menu/services pricelist
- Events calendar
- FAQ module
- Contact form
- Easy YouTube video embedding
- Display RSS feeds from other websites
- Offer visitors downloadable files, e.g. videos
- Social media integration
- 'Users online' and visitor counter

To use our Website Builder, simply purchase any of our standard web hosting plans (plus a domain name if you don't already have one you want to use). Email accounts are included as standard with all our hosting packages.
